

Dietrich's Banquet Cream BREAD!

See that there is a loaf of it in your basket every time it comes from the grocer's.

There is nothing else in that basket that contains the same amount of nourishment as your loaf of Banquet Cream.

Place a standing order for it—twice as many loaves as you are now ordering.

It will well repay you, too.

It is your Best Food—eat more of it.

Be sure it's

he thrift among the people; efforts to get back to a normal basis of living and by stopping the wild spending of money.

"The cost of government now is very

Says Poisons Cause

Head Dizziness

Coated Tongue and Myriad Ailments in the Spring.

Grandma's Remedy Now Sold in Tablet—Sulphur Tablets.

Many men, women and children need a Spring Blood Purifier. The blood becomes thick with poisons through the winter months. When spring comes serious ailments like typhoid, scarlet fever, coughs, colds, catarrh, neuritis, rheumatic pains, loss of appetite and a sluggish all-in feeling prevail.

The bowels, the liver and the kidneys need help. The blood needs thinning and purifying if pimples and boils are present. Sulphur Tablets quickly relieve constipation and kidney inactivity and elimination of poisons takes place and you are made strong and fit for spring and summer. Grandma gave sulphur and cream of tartar in molasses. Now you take them in tablets with laxative purifying herbs—a better medicine, easy and pleasant to take. Druggists sell them in 50c sealed tubes. Every package guaranteed satisfactory or money back. Get Sulphur Tablets (not sulphur tablets).—adv.

heavy and we want to cut it down as rapidly as possible. We must demolish that great and very expensive army of civilian employees which was built up during the war, which now that war is over, is no longer needed. "More production is the great cry of the world today and production we must have. It is the main remedy for the high cost of living. Increased production means prosperous business, prosperous business means a prosperous and contented labor; combined, they mean national prosperity. We must encourage American business at home and abroad.

"We must stop the tearing down of business; the idle talk against big business. No business is too big to be encouraged if it is good business, business which is helpful to the people, and no business is too small to be controlled and regulated if it is bad business and injurious to the people. We must measure the worthiness of a business by its effect upon the people. Good business we want, and we must push it forward with all the power we have."

Wood favors an elastic tariff, one that can be used for purposes of offense and defense. It must protect American industries and yet be reasonable and not kill the foreign countries which have had their industries wrecked by the war. "We must be a bit generous at this time," said the general.

He favors the league of nations with the reservations which thoroughly Americanize it—reservations "which will leave America absolutely free to follow her traditional policies to control without interference her own international affairs." No foreign meddling would be countenanced. "We must remember," he said, "that the league of nations is an infant, born of American parents while residing in a foreign land. It began its life under foreign surroundings and spoke at first in a foreign tongue. We live now got to teach it to think as an American and speak the language of Washington, Lincoln and Roosevelt."

Speaking of the industrial problem he said: "The big industrial problem, the problem of labor and capital is a very serious one. It is serious especially because of bad leadership and serious because of a certain amount of indifference on the part of those who employ and direct labor, toward the conditions under which the toiler works. "When I say labor, I do not mean

simply the five million men and women or whatever the number may be, represented by organized labor, but I mean the eighty odd million men and women who work in this country. "There is a lot of business talk about the relations of labor and capital."

"We want to give labor an absolutely square deal; and we want to give capital an absolutely square deal. Some of the worst citizens in this country have said labor and capital have nothing in common. A more untruthful statement was never made. They are one and inseparable. There is no line of separation between them. Either alone is worthless; together they produce prosperity and we must bring them together."

Gen. Wood believes the country's agricultural problems should have prompt attention and solution. It is the main source of the nation's wealth and stability. "No radicalism," he said, "is found in the house of the farmer who owns his own home. We want to extend our system of rural credits under which the farmer will

"DANDERINE"

**Stops Hair Coming Out;
Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—adv.

STORE OPEN UNTIL 9:30 P. M. SATURDAY.

Special Purchase and Sale of Women's and Misses' SPRING SUITS at \$55

**Suits of Quality
Suits in Quantity**

Quality is, of course, the main thing in selecting a suit, yet quantity is important, too, for that means an absence of limitations in styles, in sizes, in materials and in colors.

The range of selections we are offering in these suits, both as to materials and styles, is exceedingly broad.

Suits of all-wool Tricotine, Poiret Twill or Velour Checks. There are Etons, Box Coats and plain tailored

models in a large enough variety to accommodate your personal idea of what is becoming to you.

The price is most attractive, if you consider that we secured these suits far below the original wholesale cost and offer them for sale at the correspondingly low price of \$55.00.

Every woman who has delayed buying her spring suit will exercise a remarkable saving by attending this sale.

An Unusual Hat Special for Saturday

NOTHING BUT FACTS

IT IS A FACT THAT WHEN UNCLE SAM LET CONTRACTS FOR HIS ARMY the quality of merchandise had to be the best that money could buy, and now in the face of high soaring prices you have a chance to buy just that kind of merchandise at a small trifle of its real worth. We urge you—the masses—attend this sale; it's an opportunity of a lifetime; fill your wants now and have no regrets later.

he able to secure money on as easy terms as other people. We should do all we can along the lines laid down by Theodore Roosevelt to enable the tenant farmer, who is increasing in numbers, to buy the land on which he is working. Tenant farmers are good men, most of them, but it is only human that the tenant farmer who does not own the land should get out of it everything he can and put into it as little as he possibly can."

Immigration restrictions should be tightened, he believes. "Those coming to America should be inspected as thoroughly as those asking for passports in war time. America should welcome the thrifty foreign born who expect to make this country their home but it should refuse the cheap labor type which comes to hoard up some money and then return to its foreign home after demoralizing the American labor."

Gen. Wood believes in four months military training for the youth of the country between the age of seventeen and twenty-one. However, the nature of the system to be adopted he is willing to leave to congress. Whether such a system is needed, he believes would be answered in the affirmative.

by ex-service men who know better than anyone else the handicaps under which they fought because of lack of training. He is of the opinion that a large proportion of the mothers of the country realize the need of preparedness.

REJECT PACKER LICENSE SYSTEM

(INTERNATIONAL NEWS SERVICE) WASHINGTON, April 30.—Suggestions for a licensing system for the meat packers and a special commission to enforce regulatory legislation were rejected definitely yesterday by the house agricultural committee. A special sub-committee consisting of Chairman Haugen, Anderson and McLaughlin, Republicans and Rober and Rainey, Democrats, was appointed to whip into shape compromise legislation founded on the Anderson and Kanyon bills to restrict packer control of stock-rd facilities, refrigerator car service, unrelated industries and live stock markets. Haugen said he hoped the committee would be able to complete its task during the present session of congress.

DUST BREEDS GERMS

The germs of a dozen diseases may be lurking in your rugs. Countless footsteps coming in from the public thoroughfares make this a grim reality.

When you use a broom you set these millions of germs in action. When baby innocently crawls to and fro over those rugs, its life is in danger constantly.

There is only one way to eliminate the germs, the dust, the grime and the dirt—that is by the patented process of the

HOOVER Suction Sweeper

The Hoover beats, then sweeps, then cleans, drawing every atom of dust into a sanitary dust-proof bag. This process can better be demonstrated than explained, therefore we are going to ask you to come in the next time you are up town, or even better than that, call Hammond 525 and our demonstrator will come out to your home and give you a free demonstration on your own rugs.
